LEARNING

Open Yourself to a New Direction

If you are a professional, a manager or simply want to assume more of a leadership role regardless of position, Royal Roads University's Graduate Certificate in Leadership and Management program is a vital step towards expanding your leadership quotient.

**Follow
Your
Passion.**

This six-month interdisciplinary program provides you with a framework for leadership that's future-oriented, creative and artful. It will help to develop your vision, courage and personal stamina in order to bring about productive change – even in the face of overwhelming obstacles. The flexible blend of online and on-campus learning lets you keep your current commitments as you open up new possibility in your future.

Master Critical Leadership Skills

Become – and remain – a relevant, effective leader with the skills you acquire over the course of the program:

- Learn world-class, market-place-tested leadership development tools that transform theory into practice
 - Explore the new workplace from both academic and real-world perspectives
 - Learn what it takes to develop your own leadership edge
 - Explore dimensions of personal and strategic leadership, the dynamics of change and your role as a catalyst for it
 - Apply your learning through a real-life Leadership Challenge™ – a complex, current and unresolved problem facing a real organization
-

Achieve Results

Having completed your Graduate Certificate in Leadership and Management, you will be better able to work creatively and collaboratively, and understand how to create, implement and account for strategic solutions that advance your organization. Apply to transfer credits toward select degree programs at Royal Roads University.

“Experiential learning, combined with interesting readings, the course structure and the diverse characters in the class led to a rampant exchange of ideas, incredible creativity and productivity. I come away from this program challenged to incorporate true collaboration, appreciative inquiry and a strengths-based approach to my work.”
